- Project Management
- Teamwork
- Critical Thinking
- Problem-Solving
- Adaptability

EDUCATION

SECONDARY SCHOOL

South Eastern Railway Mixed Higher
Secondary School (English Medium),
Santragachi

2015 - 2022

BACHELOR OF TECHNOLOGY

Techno India University – Bachelor of
Technology in Computer Science
(Specialization in Artificial Intelligence)

2022 - 2026

NAKSHATRA NASKAR

SOFTWARE DEVELOPER

Computer Science student specializing in Artificial Intelligence. Experienced and equipped with industry-recognized certifications from AWS, Microsoft, IBM, and Google Cloud. Passionate about leveraging technology to solve real-world problems and eager to grow both academically and professionally.

PROJECTS

Nutri Info Scan:

- Developed an Android application that scans food package barcodes to display nutritional details, eco and food scores, and suitability for diabetes.
- Utilized Retrofit, JSON parsing, and Jetpack Compose for a dynamic UI.

Rakshak:

- Developed an embedded security system using an ESP32-CAM, dual laser sensors, and an OLED display. The system monitors in real time, captures images upon intrusion, and instantly transfers them to a mobile device via Bluetooth while triggering an alarm.

EXPERIENCE

Virtual Internship – AICTE Android Development:

- Completed hands-on training in Android Studio and Kotlin, building foundational skills in mobile app development.

Virtual Internship – AICTE Java Full Stack Development:

- Completed hands-on training in Java Full Stack Development, with bootstrap, spring and database
